when someone visits your custom hostname you can either show list of all rooms or you can redirect root domain to a specific room.

Step 1 : Go to <https://www.braincert.com/app/bcrooms> and select landing page setting and click 'show list of all rooms' to showcase all rooms while visiting landing page

Step 2 : Go to <https://www.braincert.com/app/bcrooms> and select landing page setting and click 'redirect root domain to a specific room' if you wish to redirect your landing page to a specific room

Step 3 : Name the title of your landing page

Step 4 : Upload your own logo (recommended size: 60*55 pixels). Upload your favicon (16*16px)

Step 5 : Upload your own personal background image either standard or custom and click save.
